Welcome to my professional portfolio! My name is Maria Emilia Lasso de la Vega and in this portfolio you will find everything you need to know about me and the work that I do.

A little about me...

I was born and raised in the Republic of Panama and moved to the US in 2014 to pursue my bachelor's degree. Currently, I am a student at the University of Missouri pursuing a Master of Science in Learning Technologies and Design, and I expect to complete my studies in the fall of 2021. Currently, I work with Missouri University of Science and Technology in the department of Student Diversity Initiatives. I hope that this degree can provide me with more insight to develop research backed training opportunities to tackle current global needs and provide new educational opportunities to underserved populations. The purpose of this portfolio is to show understanding and mastery of the Learning Technologies and Design competencies: Design and Development of Learning Systems, Front-End Analysis and System Evaluation, and Leadership and Social Responsibility.

Education Background

University of Missouri

> Master of Science in Learning Technologies and Design

The University of Texas at Dallas (May 2017)
